Google Made in India ●

2017 - Present

App selected for Google's Made in India program

At the first-ever Google Play App Excellence Summit in India, Google today announced it's new 'Made for India' initiative.

My top app Extreme- Personal Voice Assistant was selected for Google's Made in India Initiative, in August of 2017.

Extreme voice assistant now boasts more than 1 Million active users every month, and it is the second most popular personal voice Assistant after Google Assistant on Android with more than 7 different languages.

SKILLS

Artificial Intelligence

- Excellent command over Object Oriented Programming.
- Superior Math knowledge hence brilliant in developing codes for the project.
- More than 3 years of experience in artificial programming.
- Deep involvement in the programming of 17 different projects.
- Extraordinary ability to work for long hours in order to meet the deadlines and achieve targets.

Mobile Applications

An experienced mobile app developer who has a track record of success creating apps that are both well-received and commercially viable. Skilled with working as a team and incorporating input into projects. Ability to always look for ways to improve upon an already existing app to keep people downloading it and enjoying it. Strong eye for detail and tenacity to never quit on something until it is absolutely perfect.

Check out my work on Android here.
